FTKNOX.COM

New for 2011 Inferno Shield Fortress Fold Cornerstone InstaView & Color Options

## For about 30 years

Fort Knox Incorporated has perfected premium safes and vaults. We've worked hard to earn the reputation as "America's Best" through innovation, dedication to quality and personalized customer service. Our goals demand that we provide you:

- unequalled security
- superior fire protection
- backed by the most comprehensive lifetime warranty in the industry.
- all made in the United States of America

Fort Knox continually earns the title of the "Most Trusted Name In Security."

Our extensive product line is hand crafted to exceed your expectations as well as those of independent testing facilities. Fort Knox surpasses industry standards set by Underwriters Laboratory, the largest non-profit consumer protection organization. You get peace of mind in knowing that Fort Knox is one of the few that have passed their rigorous testing.

We use premium materials combined with precision craftsmanship to create each Fort Knox safe. We take pride in developing safes with the most innovative engineering, designs and manufacturing process.

# FORT KNOX

Our exclusive Fort Knox features including our famous Reinforced Fire Door, Rack and Pinion Gearing and Star Corner Bolts. Fort Knox surpasses industry standards by offering fire protection which is certified at temperatures up to 1680° in 90 minutes. (See Fire Test Results)

*There is no substitute for quality when securing your most valuable possessions.*

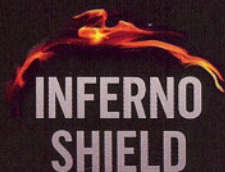

The purchase of a safe is one of the most important decisions you will make in a lifetime. Our professional representatives and dealers are willing to assist you. We invite you to take the Fort Knox challenge by making an honest comparison of quality and value. No other safe is manufactured to our high standards of quality. You deserve the best. You deserve Fort Knox.

MADE IN THE UNITED STATES OF AMERICA

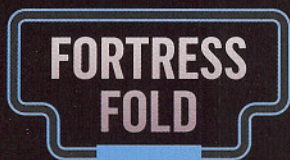

# WHAT MAKES FORT KNOX THE BEST.

Fort Knox has isolated 26 key features that set Fort Knox safes apart from the rest of the safes of today. Features from security, fire protection and finish all create the Fort Knox products. Find a full list of these features on the **Full Force** page inside the back cover.

Fire Protection starts from the inside out. Our safes are built to set the industry fire protection standard and to protect your precious valuables. This **Inferno Shield** logo will let you know that your safe has surpassed our rigid standards for 1200° in 45 minutes, 1680° in 90 minutes or even up to 1680° in 120 minutes. .

Superior door strength comes from joining both solid plate steel and folded steel. The combination of these two creates a door that can withstand the rigors of the Underwriters Laboratory attack tests. The **Fortress Fold** gives you three layers of steel around the edge of the door, giving you Fort Knox superior engineering and proven security.

Weight is critical in securing your valuables. Heavy safes deter burglars because the safe is so difficult to relocate. More steel equals more weight which equals more security. Fort Knox takes your security very seriously and uses top of the line steel products in thicknesses that lead the industry.

The candle power of the Fort Knox light kits will light up the most remote corners of your safe. Enjoying your valuables comes from seeing them. See all that you have, not just what is on the front row.

# THE LEGEND

Here's just a few ways the Fort Knox Legend Series earned its name.

- UL Listed
- Certified, 1680°F in 90 min. fire protection
- 1 3/4" Reinforced Fire Door (3/8" steel plate, 2 layers of fireboard & 10 gauge stainless steel reinforcement)
- Quadrafold™ door frame with recessed door
- **NEW** Uni-body construction of 1/4" thick steel
- Internal 10 gauge stainless steel reinforced liner (5/16" total steel thickness, 1 3/4" overall body thickness)
- FOIL™ mechanical back-up re-locking devices
- Up to 28-1 1/2" diameter active locking bolts, strategically placed at sides, top, corners & bottom of door
- Stainless Steel Package standard
- **NEW** Corner Bolts
- Drill Deflector Bolt Guard
- Patented multi-gear drive, 5 to 1 reduction rack & pinion locking mechanism with up to 55 rack and pinion machined gears
- EasyGlide™, concealed ball-bearing hinges
- Drill stop hard plate with recessed multi-bearings
- Lights (5 fluorescent lights)
- Nickel plated Gears and Glass Door Panel
- E-Lock
- Chrome or black chrome finish
- High luster, 4 stage, baked on acrylic urethane metallic finish
- Carpeted interior, including side walls
- Dehumidifier comes standard
- Limited lifetime warranty

#### **NEW Air Lock.**

*Locked, sealed and ready to block the worst that flames have to offer.*

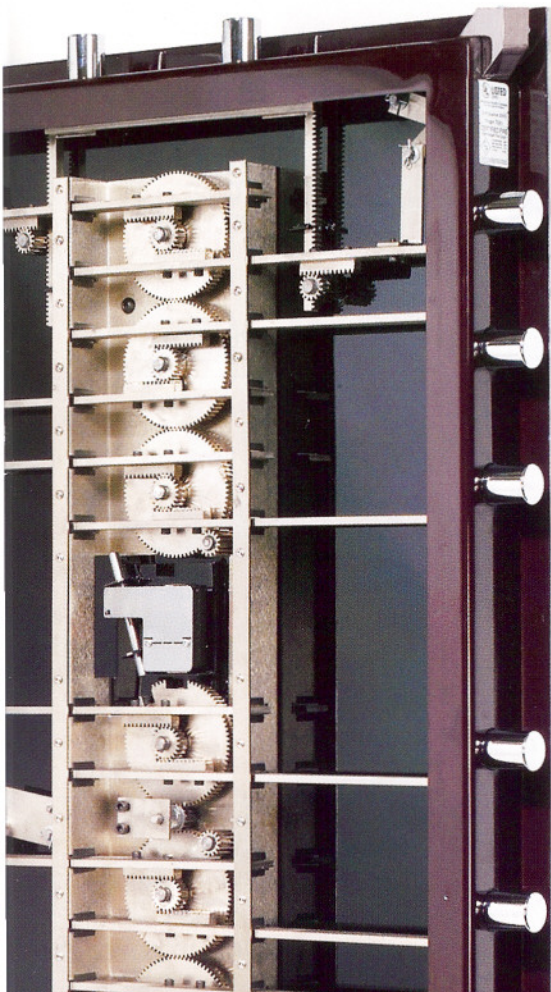

**Seal 1.** Heat activated Palusol swells to seal the safe door during a fire

**Seal 2.** A smoke seal is critical to protect your possessions until the expansion of the palusol occurs..

**STAINLESS  
STEEL**

# THE LEGEND

Perfection unsurpassed. The Fort Knox Legend Series is built better than any other safe manufactured today. With Stainless Steel inside, there truly is only one Legend.

#### Geared for perfection.

The Fort Knox patented Rack and Pinion multi-gear locking mechanism operates each locking bolt independently. With up to 55 precision Rack and Pinion gears driving up to 28 1 1/2" locking bolts, you can put full confidence in the security of your valuables. Our dedication to perfection is more than our passion; it's Legendary!

# LEGENDARY QUALITY

Legend 7241

Nickel plated gears shown above are standard for all Legend Series Safes.

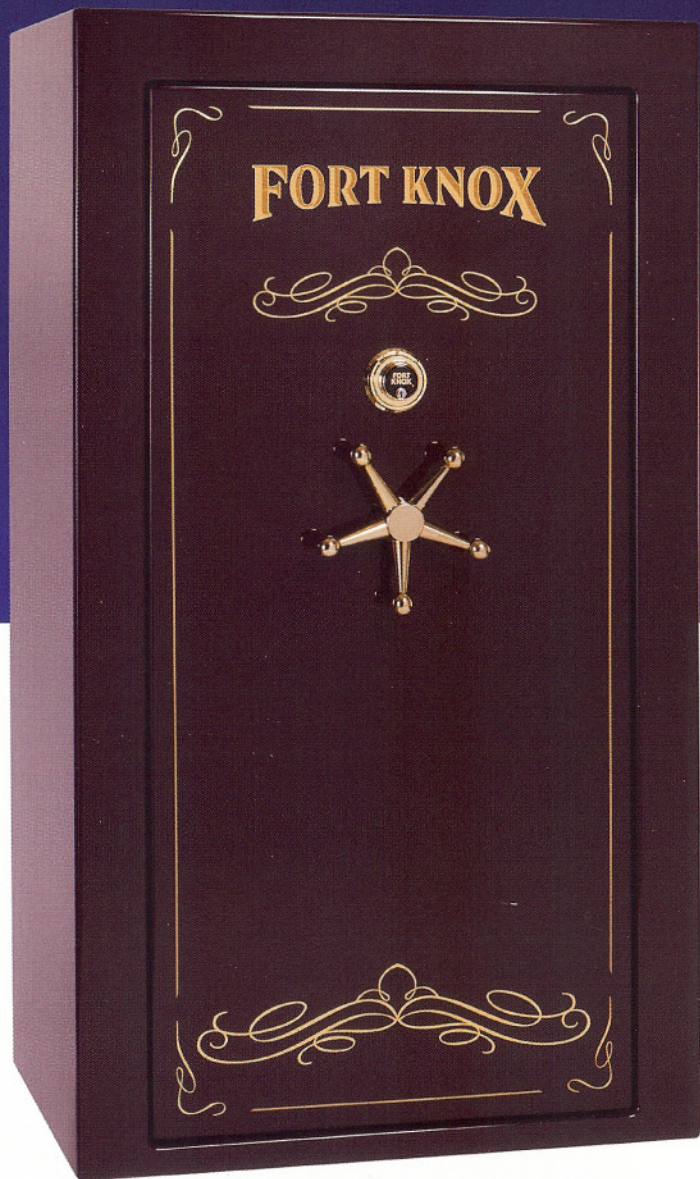

## Lifetime Warranty

America's best safe comes with the most comprehensive warranty. With our precision and exactness to detail, our Fort Knox safes are built to function far beyond warranty.

# THE TITAN

With a heavy  $\frac{3}{16}$ " body and an exquisit high gloss finish, the Titan Series gives you double steel body construction and a  $\frac{1}{2}$ " of steel in the door for maximum security with the quality you expect.

- Inferno Shield Level 90
- New Corner Bolts
- Inner Steel Liner
- Door Organizer
- Heavy  $\frac{3}{16}$ " Uni-body Construction
- Mirrored acrylic urethane metallic finish
- Remote Relocker

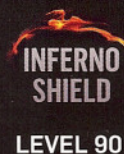

Available in 4 sizes and many colors

Titan Model	7251	7241	6637	6031
Weight	2,094	1,879	1,572	1,218
Cubic Feet	57	45	36	25
Dimensions	72.5x51x27	72.5x41x27	60.5x37x27	60.5x31x25

Adding additional features like the door organizer and dehumidifier, makes the Titan an exceptional value.

**Star Corner Bolt.**  
The new rectangular corner bolts increase the locking surface area an additional 10" around the door. The corners of the doors are critical to protect from attack.

# THE EXECUTIVE

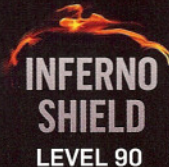

Fort Knox has redesigned the Executive Series. With a heavy  $\frac{3}{16}$ " unibody construction and new corner bolts, the Executive continues to lead the way in exquisite looks and exceptional security all at an affordable price.

- **Inferno Shield Level 90**
- **New Corner Bolts**
- **Heavy  $\frac{3}{16}$ " Uni-body Construction**
- **Mirrored Acrylic Urethane Metallic Finish**
- **Heavy 5 Spoke Handle**
- **Patented 5 to 1 Rack & Pinion Multi-Gear Drive Locking Mechanism**
- **Remote Relocker**
- **Reinforced Fire Door with 1/4 " Steel Plate**
- **Door Organizer**

Available in 4 sizes and many colors

Executive Model	7251	7241	6637	6031

# THE MAVERICK

The New 2011 Maverick gained a lot of features you'd expect from a more expensive safe. With external hinges on the right side of the door, 3 way bolts and a new 1200<sup>o</sup> in 45 minute fire package, the Maverick competes head to head with the import safes on the market today with one exception. The Fort Knox Maverick Series is made in the USA.

- **Inferno Shield Level 45**
- **3-way-bolt works**
- **Heavy 5 spoke handle**
- **3/8" multi-layer pry resistant door edge**
- **Durable Zolotone textured finish**
- **External hinge**
- **11 gauge Uni-body construction**

lets you customize everything

# SAFE ACCESSORIES/OPTIONS

## OUTSIDE HINGE

Our exterior hinges with finial caps allow the door to open wider to give you easier access to your protected items.

## EVADRY 500

Dry unit contains Water Glass Technology crystals. Water Glass is a very thirsty substance. Water Glass has an absorption rate much higher than traditional, soluble humidity adsorbing products.

## FORT KNOX PISTOL BOX

Quick access pistol box, the heaviest on the market. Constructed of a rugged 10 gauge body and a massive  $\frac{3}{16}$ " wrap around door. Fort Knox Lifetime Warranty. Exceeds the California Firearms Safety Device Requirements.  $4\frac{1}{4}$ " x  $12\frac{1}{2}$ " x  $10\frac{3}{8}$ ", 24lbs

## GUN SOCKS

The Gun Socks protect firearms and other valuable gear against rust, dirt and scratches. The cotton is natural wicking ability continually draws moisture off the weapon making them ideal for year round storage.

## DEHUMIDIFIER

Keep more than burglars away! Moisture can ruin your valuables quickly and silently. Our humidity control rod maintains a moisture-free environment inside your vault.

# SAFE ACCESSORIES/OPTIONS

## DOOR RACK

Keep your hand guns and other valuables accessible, and your vault organized with our door mounted rack.

## DOOR HOLSTERS

Organize your handguns with ease and without tools. Hook and loop material allows easy positioning and repositioning instantly. Strong enough to securely hold the largest hand guns. One size fits most.

## DOOR ORGANIZER

The Door Organizer gives you a variety of options for added storage. Cargo net pockets, zippered pockets and pistol holsters are all included for additional convenience and organization. Take advantage of all the usable space in your safe—add the Tactical Door Organizer to your options list.

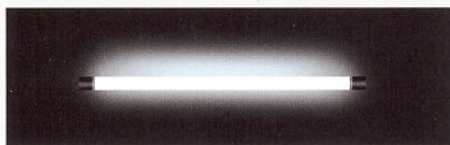

## BIOMETRIC LOCK

Only the authorized fingerprint can gain access to your valuable with the biometric lock. Customize the settings on this lock to require a code with your fingerprint, or code only.

## ELECTRONIC LOCK

Push-button convenience with uncompromized security. Up to one million potential combinations and automatically deactivates for fifteen minutes when four wrong codes are entered.

## FLOURESCENT LIGHT PACKAGE

Light up the interior of your vault with fluorescent lights that surround the door frame. When the door is opened, these lights will make your valuables shine.

## EVADRY 2200

The Dehumidifier uses Whisper Technology which makes it light and quiet. It is perfect for vault rooms and large safes. The Dehumidifier eliminates odors in poorly ventilated areas by keeping them free of unwanted moisture.

# FIRE TEST RESULTS

"...The house was totally destroyed and we lost everything. ... except a couple of years before the fire I purchased one of your [Fort Knox] Gun safes... I was shocked when the safe was opened their was no damage to the guns or valuables."  
*The Busskohl Family!*

**YOUR VALUABLES DESERVE THE BEST.** Fort Knox's Inferno Shield 90 is tested to keep the inside of the safe under 350 degrees. UL Listed fireboard insulation is used on all 6 sides and behind the hinges to eliminate hot spots or hot pockets. Heat sensitive expanding fire seal expands to seal the safe around the entire door on **all Fort Knox safes**. In addition to the high grade UL listed fireboard and deep bend box, a dead air space is manufactured into the safe which acts as a **thermal barrier**, much like a thermal pane window, to give added protection. This design provides longer protection at the high temperatures.

*See more details about the reinforced fire door on the next page.*

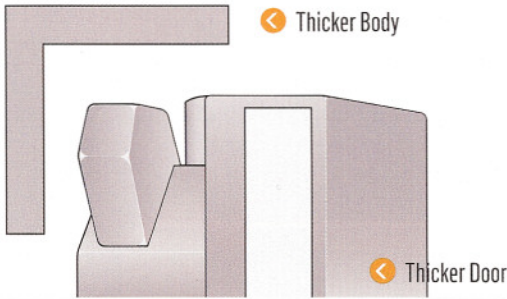

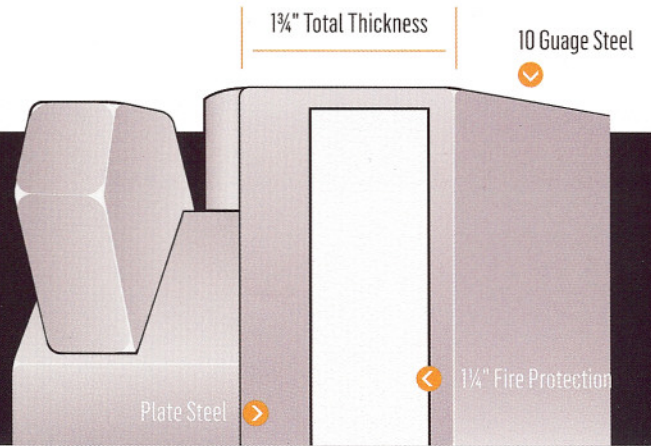

Superior Fire Protection gets ungraded! Fort Knox Inferno Shield 120 fire protection gives you the option of adding more fireboard insulation to achieve a fire rating that only commercial safes can attain. This additional fire protection will cause a slight decrease in the interior capacity of the safe interior, but it is well worth it! Protect your most prized possessions by adding the most valuable safe option; the Reinforced Fire Liner, and have your safe rated at 1680 degrees in 120 minutes.

# SECURITY OPTIONS

## REINFORCED FIRE DOOR™

Our Reinforced Fire Door adds 2 layers of fire protection to either the 3/8" or 1/4" solid steel plate, then reinforces the door with additional 10-gauge steel for added security (Over two times more steel than other composite type doors).

## DELUXE PACKAGE™

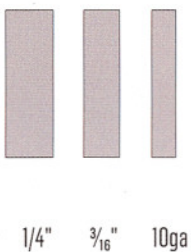

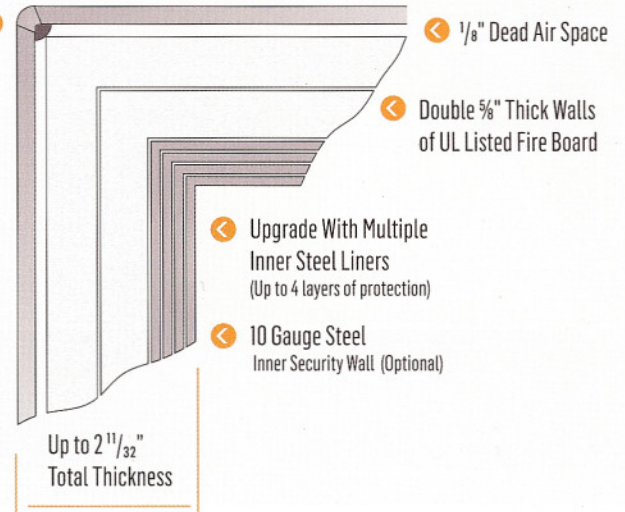

Increasing both the steel thickness in the body of the safe as well as the door creates a more secure safe. The Deluxe Package is one of our most popular options and creates an unmatched steel barrier. Increase the steel in your safe door and safe body with the Fort Knox Deluxe Package.

## INNER STEEL LINER

For added security and maximum protection, Fort Knox offers an option of additional 10 gauge steel plates to line the inner walls of your safe. Between 1 and 4 layers of steel security can be added to add additional barrier for any burglar trying to breach the inside of the safe. The industry leading security really becomes unmatched with the Inner Steel Liner.

100% PENETRATION WELDS OUTSIDE PLUS REINFORCING WELDS INSIDE

3/16", 1/4" OR 10 GAUGE PLATE STEEL OUTER WALL

## SAFE BODY UPGRADES

Your safe is the last line of defense for your valuables. With your Fort Knox safe you can now increase the steel thickness of the safe body up to 1/4" steel! For the most protection, make sure that your safe has the Fort Knox Body Upgrade.

## STAINLESS STEEL

The stainless steel package reinforces the body and door of the safe with a 10-gauge stainless steel barrier for optimum protection against a torch attack. Safe must have a reinforced steel liner and reinforced fire door. Standard on Legend Series.

## FORT KNOX LIFETIME WARRANTY

### Fort Knox Security Products LIMITED LIFETIME WARRANTY

*Fort Knox Security Products* warrants to the original purchaser only, that each new safe will be free from defects in material and workmanship for the lifetime of the original purchaser from the date of delivery. Integral units such as locks are subject to this same warranty.

*Fort Knox Security Products* will replace any safe, free of charge, broken into by forced entry or damaged due to an unlawful attempt during the lifetime of the original purchaser. Damaged safe must be returned for evaluation to *Fort Knox Security Products* by prepaid freight along with the report made by the investigating agency. The new replacement safe will be sent to the customer freight collect.

*Fort Knox Security Products* will repair or replace, at our option, any safe due to incidental damage as a result of accident, flood, or fire. Damaged safe must be returned freight prepaid to *Fort Knox Security Products*. The safe will be returned freight collect.

The responsibility of *Fort Knox Security Products* under this warranty is limited to replacement or repair of defective part at the *Fort Knox Security Products*, Orem, Utah factory, or at a point designated by them, with expense for transportation, if necessary, to be borne by the original purchaser. In no event shall *Fort Knox Security Products* liability exceed the original cost of the product.

*Fort Knox Security Products* shall only be liable when the safe is used in compliance with those directions specified in the manufacturer's instructions.

This warranty shall not apply to any safe or parts modified without the consent of *Fort Knox Security Products*.

*Fort Knox Security Products* specifically disavows any other representation, warranty, or liability related to the condition or use of the product. For more information, contact Fort Knox Security Products, 993 North Industrial Park Road. Orem, Utah 84057.

Read warranty (at larger font size) at [www.ftknox.com/warranty](http://www.ftknox.com/warranty)

With your purchase of a Fort Knox safe, we have complete confidence in our safes and so can you. We don't hide our warranty. We're proud of it, and you'll love it too because your safe will be warrantied against fire, flood or attack damage. Would you expect anything less from the very best?

Fort Knox guarantees your safe will be free from defects in material and workmanship not for just a year or two but for your lifetime.

We offer the best warranty in the industry. Compare warranties. There are a lot of "almost" in many warranties today. Many manufactures state they have a Lifetime warranty but as you read the warranty, it is full of clauses that give the manufacture an out. Some state that you have a lifetime warranty on the lock as long as it is serviced by an authorized technician. Others cover the painted finish as long as you can prove the safe has remained in a proper environment. Another clause puts the burden of replacement back on your personal home owners insurance. Only if your insurance company refuses to cover the replacement will some manufactures then step in with their warranty. These types of warranties are designed to protect the manufactures not you.

Protecting your valuables is very important and we take that responsibility very seriously. Every Fort Knox safe is built to surpass our warranty. Fort Knox has set the standard that the rest of the industry tries to follow and our Lifetime Warranty is no different.
